- LOVED -
by the earth
AND ALL TASTE BUDS

Loved by the earth and all the taste buds, our new planet-friendly take-out collection can turn you into a zero-waste superstar in no time! New for 2020, we've put together the most popular on-the-go items from compostable hot cups that biodegrade rather than hang around forever, to sugarcane to-go boxes with enhanced leak resistance and guard against saggy bottoms. So now you and your customers can look good eating on the run and feel good giving the planet a great big hug. 🤗

facilities exist

cups & lids

From the quick hit 12 oz., all the way up to the Monday morning 20 oz., you'll get the same great perks. Plant-based materials? Yep. Chemicals of concern sitting next to hot liquids? No way! Compostable and biodegradable? Absolutely. Plus, let the world know you're doing your part by showcasing the composability green stripe. That sweet cup of Joe might just have gotten a whole lot sweeter!

boxes & plates

From food trucks to fancy restaurants, the trend toward on-the-go meals just keeps getting bigger. Our biodegradable, heavy weight boxes and plates are super tough and leak resistant and come in a variety of shapes and sizes for all your foodie needs. And we made sure to include the multi-compartment options for all you brumotactillophobes, keeping that hummus and tzatziki just where it should be. Because humziki should never be a thing! ;-)

- CHEMICALS OF CONCERN -

Our plant-based food packaging contains no BPA's, phthalates or other chemicals of concern that have been outright banned or are found on hazardous watchlists.

bowls

So what do tomato soup, clam chowder and chocolate ice cream have in common? They all do a fantabulous job of ruining your new outfit! Our compostable plant-based bowls and sturdy, insulating lids are super sealable and leak resistant. We know lunch with no leaks = one happy camper, right? All you need now is a spoon...

Compostable within 180 days in a commercial facility where such facilities exist.

- CERTIFIED - compostable

All bowls and lids are BPI certified compostable. This means that within 180 days they'll break down in a commercial facility where such facilities exist.

utensils

Elegant, sturdy and compostable! How's that for a one-two-three punch? Made from extra durable plant-based material and designed for strength, our sleek matte black utensils won't start melting away in the minestrone. Around our office, we even pop them in dishwasher and use them again and again. Don't tell the new guy... 😊

Compostable within 180 days in a commercial facility where such facilities exist.
